

NRA INSTRUCTOR TRAINING PROGRAM PRE-COURSE QUESTIONNAIRE

Thank you for your interest in the NRA Instructor Training Program. The goal of this program is to develop instructors to teach NRA Basic Firearm Training Courses according to the lesson plans and training standards of the National Rifle Association. This program is not designed to prepare you to teach other firearm training courses (such as law enforcement, security, or hunter safety courses), nor to prepare you to develop firearm training courses of your own.

The NRA Instructor Training Course is designed to teach you how to teach others to shoot using NRA lesson plans and training methods. The course is not designed to improve your shooting skills. Possession of basic firearm safety and/or shooting skills is a prerequisite for certification as an NRA Instructor. You will be asked to demonstrate your firearm background through participation in pre-course assessment exercises.

A complete NRA Instructor Training Course consists of two parts. The first is basic instructor training, which consists of six hours of instruction. The second part is discipline-specific instructor training, which consists of an additional ten and a half to fourteen hours of instruction per discipline (except for home firearm safety, which has an additional five hours of instruction). For example, an NRA Instructor Training Course in rifle, pistol, and shotgun lasts at least 40 hours.

At the beginning of the NRA Instructor Training Course, you will receive from your training counselor the *NRA Instructor's Guide* in a three-ring binder, the appropriate NRA Course Outlines and Lesson Plans for the disciplines you wish to teach, the appropriate NRA basic student handbook, and other materials used in NRA basic courses.

The NRA Training Counselor who conducts your course will make a recommendation to NRA concerning your certification based on an evaluation of your knowledge, skill, and attitude. You will be asked to demonstrate your organizational and teaching skills through participation in several practical exercises during the course of your training. You will also be asked to complete an instructor certification examination. A minimum score of 90 percent is required for certified instructor applicants (85 percent for assistant and apprentice instructor applicants). Attendance at the course, or a passing grade on the examination, does not guarantee that you will receive the recommendation of the NRA Training Counselor.

Instructor certification involves a commitment to conduct NRA Basic Firearm Training Courses on an annual basis in each discipline group (rifle, pistol, shotgun) in which you hold instructor ratings. NRA instructor ratings are valid for one year. Renewal of your certification will be contingent upon your annual activity in conducting NRA Basic Firearm Training Courses, and your participation in periodic recertification activities.
